

I signed up for the no call list and it has brought wonderful relief. As a single, working parent I need the time after work to take care of family and household business and NOT take any time or be interrupted for unwanted telephone calls. There is a degree of peacefulness in the home at dinner time and early evening that was not there before I registered for the do not call list.

Regardless of my personal situation however, I should be able to elect NOT to receive these calls in any case.

I would also like the calls from politicians (around election day) to be added to the list of calls that are not allowed.

Please retain this "Do Not Call" registry.
